

1919 Investment Counsel Named as a Financial Times 300 Top Registered Investment Adviser¹

1919 Investment Counsel is pleased to announce we have been named to the 2019 edition of the Financial Times 300 Top Registered Investment Advisers. This FT 300 list recognizes top independent RIA firms from across the United States.

1919 Investment Counsel was founded on the belief that no two clients are alike and that there was a need for independent counsel provided by dedicated professionals who always put a client's interests first. For a century, our unwavering commitment to create investment solutions tailored to each client has been a hallmark of our firm and is our commitment to those we serve. Today, we manage approximately \$12.9 billion² in assets, operating from eight offices located from coast to coast.

We appreciate being included in the FT 300 list. This is the sixth annual FT 300 list, produced independently by the Financial Times in collaboration with Ignites Research, a subsidiary of the FT that provides business intelligence on the asset management industry.

RIA firms applied for consideration, having met a minimum set of criteria. Applicants were then graded on six factors: assets under management (AUM); AUM growth rate; years in existence; advanced industry credentials of the firm's advisers; online accessibility; and compliance records. There are no fees or other considerations required of RIAs that apply for the FT 300.

¹ The Financial Times 300 Top Registered Investment Advisers is an independent listing produced annually by the Financial Times (June 2019). The FT 300 is based on data gathered from RIA firms, regulatory disclosures, and the FT's research. The listing reflected each practice's performance in six primary areas: assets under management, asset growth, compliance record, years in existence, credentials and online accessibility. This award does not evaluate the quality of services provided to clients and is not indicative of the practice's future performance. Neither the RIA firms nor their employees pay a fee to The *Financial Times* in exchange for inclusion in the FT 300.
